

Erasmus Student Network Düsseldorf e.V.

ESN is the **key student
volunteer organisation** in Europe

We work under the motto:
Students helping students

We are located in more than 40 countries
with over 15.000 volunteers.

We are aiming to support International students (Erasmus and full degree) upon their arrival in Düsseldorf and also their further integration in the local (student) society.

We also to promote mobility opportunities among local students and support the reintegration of students coming back from their mobility

Therefore ESN organizes a wide range of events throughout the semester.

Starting with the buddy program that connects local and international students even before their arrival, the welcome week at the semester start and several events per week throughout the semester, like our regular table and diverse weekend activities.

Our regular table takes place Wednesdays at
20:00 in Retematäng Bar - Rättingerstraße

We organize regular social, cultural and sporty events like:
international dinners, games nights, theater/opera and
museum visits, go to sport events or get active ourselves
during hikes, bouldering, Beachball...

A regular highlight are our city trips, f.e. Amsterdam, Berlin,
Hamburg...

→ registration and tickets on Pretix

We also invite international students to our team to organizes events and develop new ideas with us.

Because who nows better how to help internationals than students who made this experiences themselves?

Beside our local activities we also engage in national and international network activities.
